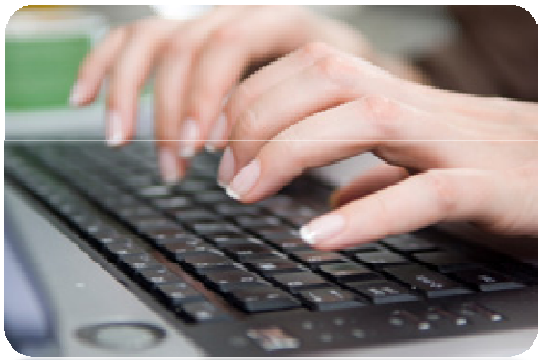
MYSTATS 2013

Panel Discussion :
Innovation in Statistics and Analysis for responsive Policy Action



MOHD UZIR MAHIDIN
DEPARTMENT OF STATISTICS, MALAYSIA

www.statistics.gov.my

Outcomes sought from the DOSM

Stakeholders & an informed society using official statistics

Trust and confidence in the DOSM

Relevant to current and prospective users

Produced according to principles, protocols and methods that achieve integrity and quality

Dependent on the co-operation and goodwill of data suppliers

Access to Official Statistics

Statistics must be accessible to all – channel, format and release practices

Awareness among users and potential users of the statistics available and their relevance

Users have the capability to use the statistics they need

Official Statistics: General Principles

A system that:

- **is trusted, professional and internationally benchmarked**
- **is mandated through public legislation**
- **Contains transparent and open process**
- **Engages statutory, professional, and community**

Data that is:

- **objectively compiled and analysed**
- **accurate, secure and confidential**
- **accessible through a range of media**
- **drawn from a range of sources**
- **fit for purpose**

Current Focus:

-Data warehouse

-Integrated system (NEWSS)

-E-survey / CATI / PDA

-Enhancing Dissemination (e-Services)

-Business Registrar

-Integrated Questionnaires

-New Statistics/Indicators

-Focus on short terms indicators

-Statistical consultancy (TWG, IAPG, IATC)

-International involvement

-Capacity building (Intangible capital)

-Communication /Statistical literacy
